

After you have done this you must choose the payment plan that you believe would be best for you remembering you have other bills throughout the month to still pay for other than your car payments.

	Car payments with a 10% down payment	Car payments with no down payment
Original cost of the car		
Down payment amount		
The amount of your monthly car payment over 36 months		
The amount of your monthly car payment over 48 months		
The amount of your monthly car payment over 60 months		
The amount of your monthly car payment over 72 months.		
Total amount you will eventually pay for your car		
Total amount of interest you will pay on your loan		

Which is the car payment plan you chose and why?
